Public process, housing market analysis, economic and cost of services analysis.

Greene County Housing Action Plan

River Street is currently in the process of preparing a Housing Action Plan that will examine housing needs in Greene County, broaden understanding of the components of a healthy housing mix, and provide decision-makers with solutions to addressing needs in the Greene County housing market. The Housing Action Plan will examine the current housing stock in the County and discuss future development projections with recommendations regarding current and future housing needs. In addition the Plan will determine the potential tenant and homebuyer demand for various housing options, examine municipal land use regulations for potential barriers to development that pose constraints within Greene County, identify public, private and not-for-profit partners and potential developers, provide assistance to local municipalities on the creation of appropriate land use regulations.
